Terrific technology! This Term, classes have enjoyed their technological EOTC trips and studies about 'planet earth & beyond' (Y1-3), artistic design (Y4-6) and entrepreneurial endeavours (Y7-8). R12 had an absolute blast making astronauts and following papier mache instructions to craft planets. Y7-8 students' have been convincing readers with their persuasive writing – way to go, Matthias and Aiyana (R1) with your 'shark tank pitches'! Tino pai Y4-6 for hosting a most stunning Tech Expo – our eyes and ears were dazzled! Congrats Middle Team for leading your students through tricky tech processes and bringing their cross-curricular creative capabilities to life ([see p.2](#)). Next Term begins with the [Tread Lightly mobile van](#) visiting with all classes engaging in fun interactive activities and exhibits. We look forward to the students' curiosity and creative action related to their environmental sustainability studies.

Are you sick and tired of having a heavy and cluttered back pack? Well, we've decided to create a bag that reduces the weight of the bag straps while also being spacious inside, making it easier to organize your daily items. Truth is, having a cluttered and heavy backpack can make even the simplest tasks feel overwhelming. Just to make it worse, the weight of the straps can cause physical strain on your muscles. Our solution is a long-lasting leather bag that will give you a luxurious feeling on your shoulders!

Do you just hate it when you brush your hair and it gets stuck between the bristles? Owwww-ch!! Don't worry! Introducing the self-cleaning hair brush! One click and the second layer pops off with all that hair as well! Then apply that layer back on - it works faster than you can blink your eye! To prevent you from accidentally pushing the button when brushing, with a hard push, it'll stay put. A product just right for any woman. Boys, or men can use it, including Sir L (our teacher)! Eco-friendly and convenient.
